

- **04328: Revolution Chrome Mini Stand**

The Euromet 04328 is a floor microphone stand made of steel with a cast iron base (250(D) mm), and PVC inserts.

The new SLS - Self Locking System - will lock and hold a variety of positions. It is supplied with cable and thread adapter 3/8" and M12x1 thread inside, M16x1 outside.

In order to facilitate transport it can be fully folded. It's a very good solution for conference, drum amplification etc.
