

• **9155045:** Helios IP Verso - Biometric Fingerprint Reader basic Module

The 9155045 2N Helios IP Verso Biometric Fingerprint Module security intercom module which provides reliable access control and allows for easy interface with other systems, achieving greater site security.

The 9155045 finger print module combines complete reliability with luxury design to provide a modern maximum access security for your building using secure and reliable access technology.

The Biometric algorithm reliably matches fingerprint and, just as accurately, rejects any scanned fake entries.

Please install this module within a customisable main unit from the Helios IP 2N Verso Range:

- 9155101C Basic unit with Camera (Nickel)
- 9155101 Basic unit (Nickel)
- 9155101CB Basic unit with Camera (Black)
- 9155101B Basic unit (Black)

Features:

- Highly secure and comfortable identification method
- Fast matching speed
- IP54 and IK8 Rating
- Optical sensor suitable for outdoor use
- Algorithm for fake fingerprint detection
- Recognises even wet fingers
- Luxury Design

Specifications:

Model:	9155045
Sensor	Optical sensor protected by resistant glass
Reliability	Algorithm for fake fingerprint detection
Resistance	IP54 and IK8 Rating, resistant to water and dust
Ambient light suppression	Also works in direct sunlight
Status signalisation	Acoustic and with the aid of multicoloured LEDs
Sensing area	Large with dimensions of 15.24 x 20.32 mm
Operating temperature	-20°C to 55°C
Certification	FBI PIV
Dimensions	99(W) x 123(H) x 47(D) mm
Net. Weight	0.4kg
