

SDM-WPS-HP

Hyshare Pro Wireless Receiver Module

The Hyshare Pro is a high-performance Wireless Receiver Module, which provides a smooth wireless screen-casting experience. Users are free from messy cables and complicated interfaces. It supports cross-platform collaboration and communication, including Windows, macOS, Android, and iOS systems.

This wireless receiver module can be easily slotted into CYP SDM input platform, such as CPLUS-V32SDM. Users can instantly share their screens on a host computer, smart phone or tablet in meetings or classes through the Hyshare Pro App or the optional Hyshare Pro Pod.
