

• **C007W:** Button Omni-directional Boundary Microphone, Untermated, White

The C007W is an Omni-directional, boundary layer condenser microphone made by Clockaudio. It is suitable for surveillance and recording in sensitive areas such as banks, airports, railway stations, law courts, conference and convention centres.

Very low profile and easily mounted with M12 x 1 nut and washer supplied.

Finished in white.

Features:

- Finished in matt White
- Omni-directional
- High quality engineering
- Low visibility & ease of mounting

Specifications:

Model:	C007W
Frequency Response	50Hz ~ 20kHz
Sensitivity	-42.5dB \pm 2dB at 1kHz (0dB=1v/Pa)
Impedance	1k Ω
Power Requirements	2 ~ 10v max through series resistor
S/N Ratio	40dB (A)
Termination	Open-ended
Dimensions: Head Diameter	20 mm
Dimensions: Overall Length	25 mm
Weight	0.03kg
