

• **DH2400: 2.4GHz Digital Wireless Handheld Microphone**

The DH2400 Handheld Microphone is designed to be used with the DWR2420 Receiver for 2.4GHz licence-free transmission used in the Education, Houses of Worship and the Corporate market. The Handheld Transmitter is recharged with the HC-92 Drop-in Charger (not supplied) and has a clear LCD screen and side switch allowing for easy operation.

The DH2400 has been encased in ABS housing making this robust for use and lasts 12hrs without recharge.

Chiayo's new Digital Wireless system provides several key advantages, the main one to note is that these products work on a 2.4GHz/Bluetooth frequency allowing for licence-free operation where up to 190 separate channels may be used.

Features:

- Clear and intuitive LCD display for easy operation and quick set-up
- Slide switch to lock transmitter on stand-by mode
- 3-step power control to switch between ON-MUTE-OFF status
- Various microphone modules for versatile, professional live sound
- Operating time up to 12 hours with 2 AA batteries
- Matched battery charger: HC-92 (Optional, use with rechargeable batteries only)
- Sturdy ABS housing

Specifications:

Model:	DH2400
Display	LCD
RF output power	10mW, adaptive up to 20mW (country-specific)
Current consumption	140mA
Battery used	2 x AA(1.5V) batteries
Operating time	12 hours
Dimension	53 Ø x 256(H) mm
Weight	0.218kg

Remark: The above specifications are subject to change without prior notice
 ** The output power may vary from country to country.
