

• **Elma 126: 400A AC Clamp Meter & Temperature HVAC**

The new Elma 126 is a 2-in-1 Clamp Meter which is ideal for anyone who works with water, heating and ventilation.

The unit combines both Multimeter and Thermometer in one test instrument, providing accurate measurement of voltage, frequency, capacitance, resistance and continuity, as well as temperature.

The Elma 126 Clamp Meter features two large, clear displays making it possible, for example, to measure both current and voltage simultaneously.

Features:

- Combined Clamp Multimeter and Thermometer in one unit
- Simultaneous electrical and temperature measurement at the same time
- Data Hold
- Max. Hold
- Compliant with IEC 61010-1 CAT III 600V
- Supplied complete with carry bag, temperature sensor (-20 to 250°C), test leads, battery and manual.
