

• **Elma Contilight:** Continuity Tester with built-in Flashlight

The Elma ContiLight is a Smart Continuity Tester, with a built-in bright LED flashlight, it tests for Continuity with up to a 200mA test current and indicates dangerous voltage up to 400V AC / DC with LED and a pulsating audible signal. Includes fixed test leads.

Features

- Continuity Smart Meter
- Built-in LED flashlight
- Tests Continuity up to 200mA
- Indicates live Voltage up to 400v AC/DC
- Indication via LED and audible signal
- Supplied with fixed test leads, instructions

Specifications:

Model:	Elma Contilight
Continuity	0~10kohm
Test Power	>200mA, 0~100ohm = <10mA
Test Voltage	<9v
Voltage Warning	50~400v AC/DC
Battery	9v 6F22 (included)
Dimensions	130(H) x 72(W) x 30(D) mm
Net Weight	0.26kg
