

• **Elma DT 2236:** Photo/Contact Tachometer

The new Elma DT2236 is a handy combination Photo/Contact Tachometer with 3 functions in one instrument, providing measurement for:

- Revolutions via light and reflection band
- Mechanical RPM via measuring tip
- Surface speed via measuring wheel

This all-in-one technology means that DT2236 can replace 2-3 other individual instruments and measurement/operation becomes even easier.

Features:

- Combination Photo & Contact Tachometer
- Memory for last, highest and lowest values
- Measures RPM, metres per minute and feet per minute
- Supplied complete with carry case, accessories and manual

 TSI Code: 395666379
