i3SYNC PRO

PLUG & PLAY WIRELESS PRESENTING TOOL

Bringing technology to life.

i3SYNC PRO

Struggling with cables, re-adjusting resolutions or having trouble with configurations are all problems of the past! i3SYNC PRO is easy to use and allows all participants to share content from any device onto a central screen!

CHANGE THE WAY YOU GIVE PRESENTATIONS

Discover a new way to give presentations with this compact and lightweight presenting tool. The i3SYNC PRO is user-friendly and enables different participants to share content on a central screen with the push of a button. The tool is compatible with all technology devices that have a HDMI connection. You only need to plug in the wireless transmitter and receiver and you are ready for instant sharing.

i3SYNC PRO Wireless HDMI Presentation System

CLEAN DESK

Say goodbye to the meeting situation where you have to search for the right cable or where every participant has to bring their own connection cable; i3SYNC PRO is a tiny, wireless HDMI device with a sleek design. It fits perfectly in a clean meeting room.

HIGH IMAGE QUALITY

The i3SYNC PRO allows you to share your screen in Full HD. This means you can share images, files, presentations, videos and much more in high quality on a large screen.

PROMOTE COLLABORATION

Switch between screens with the push of a button. The device allows up to 254 users to share their screen, which promotes collaboration and flexibility in the meeting room.

SAVE TIME

Messy cables or adjustments of resolutions are problems of the past. i3SYNC PRO is a true plug-and-play device: it allows you to share your screen instantly without installation and cables, which saves you and your team precious time.

EASY TO MANAGE

Reorganize your devices as much as needed. No technical expertise is required, as it is purely a matter of linking transmitters and receivers. In case you need a bigger meeting room, it is possible to use transmitters from another room, instantly link them to the new receiver and you are all set.

i3SYNC PRO

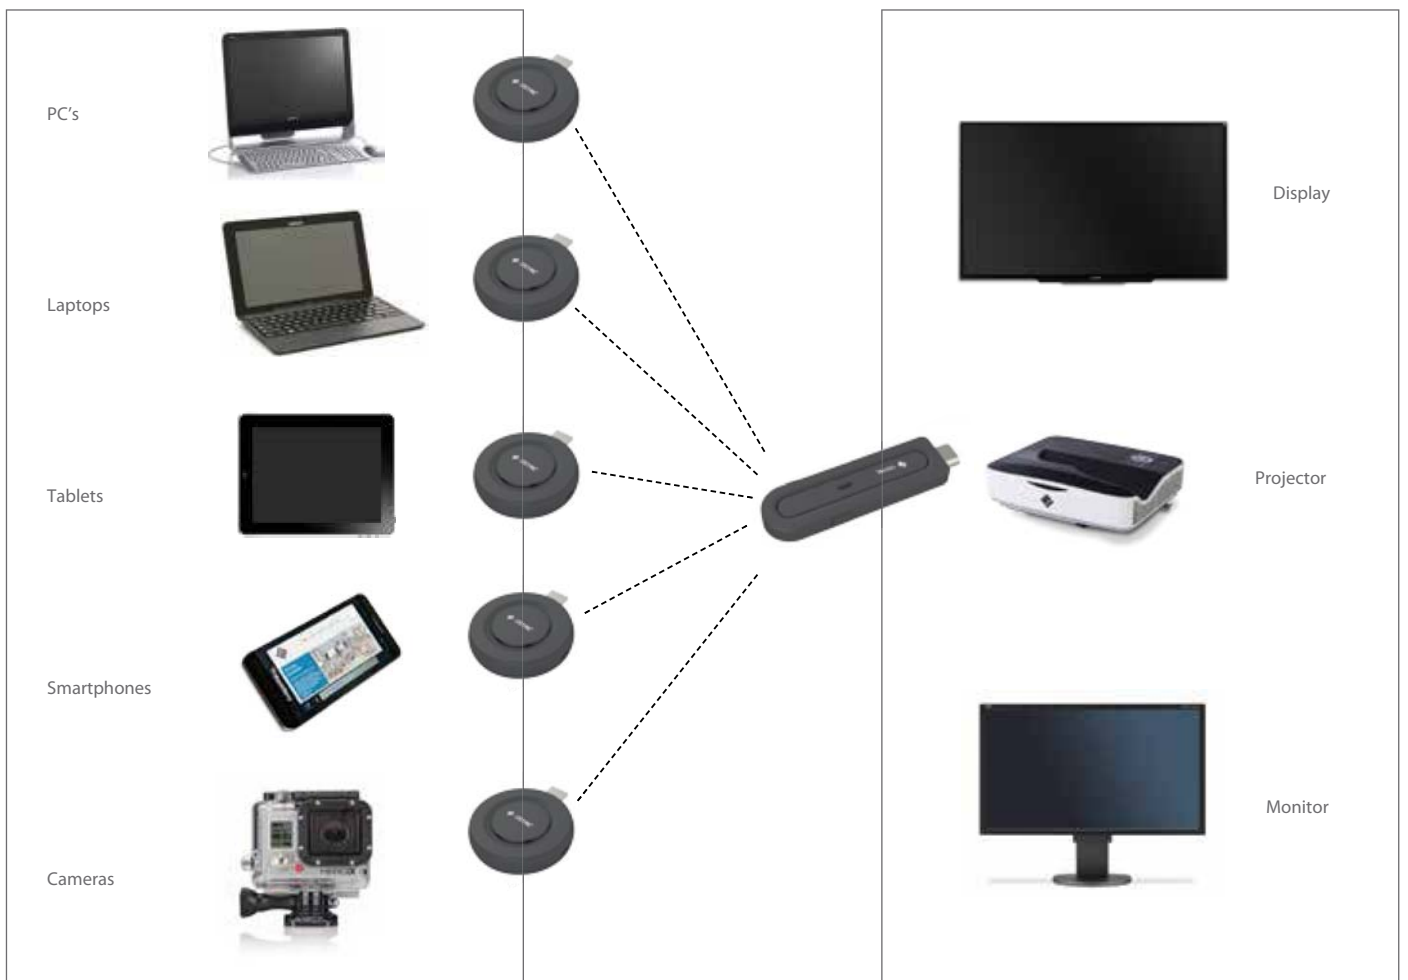

FEATURES

- Wireless streaming of video & audio
- Plug & play (no drivers required)
- Switch instantly from one presenter to another: just push your button
