

**TSD-PA20VG**  
**Mono 20W Power Amplifier**

## Description

The Atlas Sound TSD-PA20VG is a cost-effective mono amplifier for  $4\Omega$  and distributed constant voltage (25/70/100V) speaker systems. Applications such as house of worship cry rooms, hallways, restrooms, foyers, and classrooms will benefit from this compact reliable amplifier. The TSD-PA20V is also a cost-effective alternative for small projector systems as it can be used with as many as (16) 25/70/100V ceiling speakers (tapped at 1W each), plus the extremely small footprint allows for easy mounting. For sound masking applications the TSD-PA20VG has the capacity to drive up to 34 masking speakers tapped at .5W each on a 70.7V line.

Output is gain controlled from a potentiometer on the front panel with removable knob to facilitate installation of a tamper-resistant cover (included).

The TSD-PA20VG is part of a full line of Atlas Sound Time Saving Devices. These compact (1.5" x 4" x 5.2") units are designed to solve some of the common audio system problems in the easiest, most efficient, and cost-effective way. All models are made from high quality components and include removable individual I/O connectors for quick and precise wiring, separate ground terminals for all I/Os assuring secured connections, and removable level controls that can be replaced with tamper-resistant security covers. The TSDs are highly efficient and meet most energy standards as one 24V DC power supply (available separately) can power multiple Atlas Time Saving Devices.

## Features

- 20W Mono Amplifier
- $4\Omega$ /25/70/100V Output
- (1) Balanced Input
- Removable Level Control with Set-It-And-Forget-It Security Cover
- Peak Indicator
- Input Signal Indicator
- Cable Management System
- Multiple Mounting Configurations
- Separate Ground Connections
- Removable Phoenix Style I/O Connectors
- Meets Most Energy Standards
- Compact Chassis Design

## Audio Applications

- Projector Amplifier
- Zone Amplifier
- Paging Systems

## Installation

- Courtrooms
- Public Forums
- Churches
- Restaurants
- Schools
- Industrial Facilities
- House of Worship

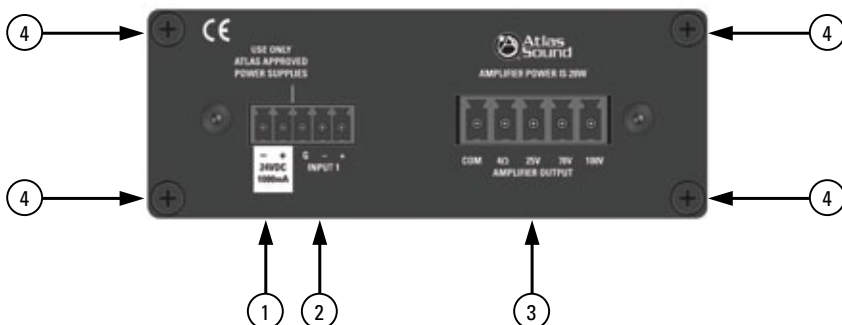

## Front Panel Description

1. **Input Level Control** - Determines the output level at the loudspeakers on the PA20VG. Turn clockwise to increase the signal level and counter-clockwise to decrease the level. **Note:** The Input Level Control knob can be removed and replaced with a supplied security cover to prevent unauthorized adjustment.
2. **Power LED** - Illuminates Blue when 24VDC power is present.
3. **Signal LED** - Illuminates Green when the input signal strength reaches 25mV to verify a signal path.
4. **Peak LED** - Illuminates Red when the input signal reaches 3dBV below when signal clipping will occur. Occasional flashing is normal but if this indicator is continuously On, then reduce the input level using the Input Level Control on the front panel.
5. **Bracket Retainer Points** - Each TSD includes two mounting brackets for securing the TSD to a cabinet or wall. Remove screws and align the bracket with the panel hole before firmly tightening the screws.

## Rear Panel Description

TSD Input/Output connections are removable for easy system wiring. The connectors have a 3.5mm pitch between pins.

- 1. DC Power Input** - Each TSD that requires DC power comes with a 2 position connector for an external 24VDC power supply (sold separately). Because of the TSDs low power consumption, a single external power supply may power more than one TSD. Please refer to the specifications on current requirements in milliamps to match with the appropriate power supply. Please observe the polarity of the wiring to this connector. **Note:** It is acceptable to exceed the current requirements of the TSDs but NOT safe to use a power supply that is below the current requirement of the device.
- 2. Balanced Line Input** - Connect balanced line level signals to this phoenix style connectors. Your connection must be mated properly to the input connector or signal loss and/or noise may occur. **Note:** Unbalanced line level inputs can also be used by connecting the (G) and (-) terminals together.
- 3. Speaker Outputs** - Connect the loudspeaker wiring to these terminals, observing the polarity shown on the rear of the chassis. For low impedance loads, use the "COM" and 4Ω terminals. For high impedance loads, use "COM" and the proper terminal for your system (25/70/100V). It is recommended to keep the sum total of tapped loudspeakers to 20W.
- 4. Cable Management Retainer Points** - Use the rear panel screws for connecting the included cable retainers. Each TSD comes with two cable retainers for simplified cable management.

## Knob and Security Cover

All front panel level controls feature a removable knob that can be replaced with included security covers to prevent potentiometer damage or unwanted changes.

- **Knob Installation** - Turn the potentiometer shaft fully counter-clockwise. Align the knob indicator to the lowest setting on the panel and the potentiometer shaft slot. Carefully press the knob onto the potentiometer shaft. Do not force or damage may occur to the potentiometer.
- **Security Cover Installation** - Remove the knob from the panel and insert the cover. Do not force or damage may occur to the potentiometer. Small pliers may be required to remove the knobs.

## Mounting

There are three ways to securely mount this TSD:

1. **Velcro™** - Each unit includes industrial-grade Velcro™ with adhesive backing to adhere to any flat surface.
2. **Brackets** - Each unit includes two mounting brackets to secure to a cabinet or wall.
3. **Rack Mount Panel** - The optional TSD-RMK rack mount panel supports up to four TSDs in a 1RU space.

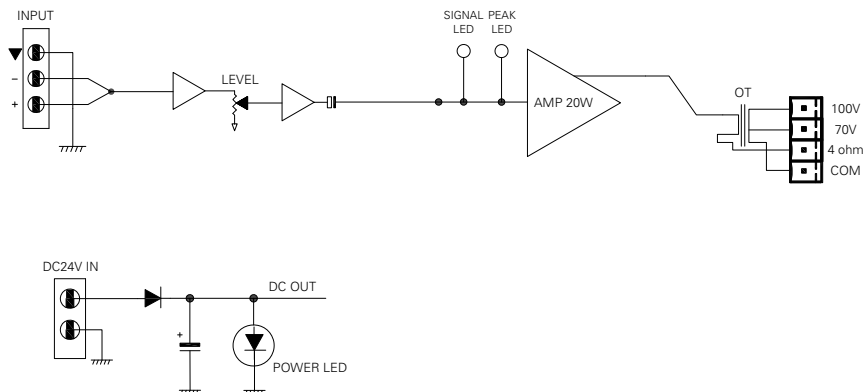

# TSD-PA20VG 1x20W Global Commercial Amplifier

## Owner's Manual

### Block Diagram

### Specifications

Description	1 x 20W Global Commercial Amplifier
Chassis Color	Black
Chassis Material	Aluminum
Power Output	20W @ 4 $\Omega$ , 10W @ 8 $\Omega$ , 20W @ 25/70.7/100V Loads
<b>Input</b>	
Type	Qty 1, Balanced Line
Connection	Removable 3 Position Captive Screw 3.5mm Spacing
Impedance	10K $\Omega$ Balanced, 5K $\Omega$ Unbalanced
Line Input Level	500mV (-6dBV) Balanced
<b>Output</b>	
Output Taps	4 $\Omega$ , 25V, 70V, 100V
Type	Speaker Output
Connection	Removable 5 Position Captive Screw 5mm Spacing
Wire Size	14 Gauge Max Wire Size
<b>Controls</b>	
Level Control	Qty 1, Removable Knob with Security Cover
<b>Indicators</b>	
Input Signal	Green, 25mV On Threshold
Peak	Red, -3dB Before Clip
Power	Blue

Atlas  
Sound

Electrical	
Frequency Response	40Hz - 20kHz ( $\pm 3$ dB)
THD	15% @ 1kHz
Signal to Noise	78dB

### Mounting

Velcro™	Industrial-Grade, Included
Brackets	Qty 2, Included
TSD-RMK	Optional 1 RU Rack Mount Panel (Supports 4 TSD Units)
Cable Retainer	Qty 2, Included

### Power Requirements

**Note: All Current and Watt data is based on AC power consumption using the TSD-PS24V2500mA Power Supply.**

Load Taps	4 $\Omega$ , 25V = 31 $\Omega$ Load, 70V = 250 $\Omega$ Load, 100V = 500 $\Omega$ Load
Voltage	24VDC
Idle Current	50mA
Idle VA Watts	1.2W
Average Current	160mA
Average VA Watts	3.8W
Max Current	490mA
Max VA Watts	11.7W
Dimensions	H 1.5" (39mm) x W 4" (101mm) x D 5.2" (132mm)
Weight	6oz, .165kg

### Accessories

TSD 24VDC Power Supplies  
TSD-RMK 1 RU Rack Panel

### Safety and Certifications

External Power Supply      cUL, CE, RoHS, TUV

## Limited Warranty

All products manufactured by Atlas Sound are warranted to the original dealer/installer, industrial or commercial purchaser to be free from defects in material and workmanship and to be in compliance with our published specifications, if any. This warranty shall extend from the date of purchase for a period of three years on all Atlas Sound products, including SOUNDOLIER brand, and ATLAS SOUND brand products except as follows: one year on electronics and control systems; one year on replacement parts; and one year on Musician Series stands and related accessories. Additionally, fuses and lamps carry no warranty. Atlas Sound will solely at its discretion, replace at no charge or repair free of charge defective parts or products when the product has been applied and used in accordance with our published operation and installation instructions. We will not be responsible for defects caused by improper storage, misuse (including failure to provide reasonable and necessary maintenance), accident, abnormal atmospheres, water immersion, lightning discharge, or malfunctions when products have been modified or operated in excess of rated power, altered, serviced or installed in other than a workman like manner. The original sales invoice should be retained as evidence of purchase under the terms of this warranty. All warranty returns must comply with our returns policy set forth below. When products returned to Atlas Sound do not qualify for repair or replacement under our warranty, repairs may be performed at prevailing costs for material and labor unless there is included with the returned product(s) a written request for an estimate of repair costs before any nonwarranty work is performed. In the event of replacement or upon completion of repairs, return shipment will be made with the transportation charges collect.

EXCEPT TO THE EXTENT THAT APPLICABLE LAW PREVENTS THE LIMITATION OF CONSEQUENTIAL DAMAGES FOR PERSONAL INJURY, ATLAS SOUND SHALL NOT BE LIABLE IN TORT OR CONTRACT FOR ANY DIRECT, CONSEQUENTIAL OR INCIDENTAL LOSS OR DAMAGE ARISING OUT OF THE INSTALLATION, USE OR INABILITY TO USE THE PRODUCTS. THE ABOVE WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Atlas Sound does not assume, or does it authorize any other person to assume or extend on its behalf, any other warranty, obligation, or liability. This warranty gives you specific legal rights and you may have other rights which vary from state to state.
