

• **USBTC121:** USB 3.1 Cable Type-C Male to DisplayPort Male, 1.8m

The **Hyperstream USBTC121** is an Adapter Cable for connectivity between devices featuring DisplayPort and devices featuring the latest generation USB Type C connector.

This 1.8 metre long, white Adapter Cable is ideal for connectivity of handheld and portable devices such as Smartphones, tablets and laptops which feature the latest USB Type C connector with AV devices featuring DisplayPort inputs or outputs.

The **USBTC121** supports **4K UHD** AV signal transfer.

USB version 3.1:

USB version 3.1 is the latest of this universal data transfer standard and offers truly amazing upgrade in both power delivery and data transfer. This latest USB version now features SuperSpeed Plus to support a massive 10GB per second data transfer (double the speed of USB 3.0!) and a power delivery of up to a huge 100 Watts (compared with just 4.5 Watts from version 3.1)!

So this new USB version 3.1 is set to deliver super fast data and power; ideal for large data file transfer, live video and audio streaming and power charging of larger devices.
